Attn: Customers of Liberty Seafood

January 1, 2019

Please be advised that **Liberty Seafood** is aware of the HACCP rules and is in compliance per HACCP requirements.

These steps include:

1. Designating personnel to review the FDA HACCP regulations,
2. Development of product safety specs for each type of product that we import, and
3. Maintain on-site, current copies of signed product safety specifications as they relate to each of the products we import from that individual producer.

We obtain, maintain and review for HACCP plan appropriateness / truthfulness of all of our suppliers overseas. We obtain and maintain from each supplier a current letter of guarantee, which indicates that a HACCP trained individual has conducted a hazard analysis, developed appropriate HACCP and sanitation monitoring programs, and oversees the programs' implementation when producing product for export to the United States.

We obtain and maintain current statements from cold storage facilities and common carriers regarding the steps they have each taken to follow FDA HACCP rules.

Liberty Seafood is COOL compliant with labeling and paperwork.

We understand that this is a continuing guarantee that we will renew with you once every 12 months upon request. If you have further questions or needs, please don't hesitate to reach out to us by phone or email as follows:

Phone – (610) 940-9227 x107 | Email – mark@libertyseafood.com

Sincerely,

Mark McCloskey –President
