

WORLD CENTRIC

10/12/2018

Re: Continuing Food Safety Letter of Guarantee

Dear Customer:

This letter is to certify that all raw material and ingredients used by World Centric in the manufacture of our food packaging products meet FDA requirements for contact with food as detailed below. World Centric ensures this compliance through certifications from its suppliers and/or testing of materials and products by outside laboratories.

Primary Materials Used in the manufacture of World Centric products comply as follows:

- Natural Molded Pulp as well as Paper used in Straws comply with US FDA 21, CFR 176.170
- Polylactide (PLA) polymers and coatings (CAS Reg No 9051-89-2) comply with FCN-178 (US FDA Food Contact Notification - Natureworks 2002) which is inclusive of all food types with the limitation of conditions of use B-H.

Processing of above materials by World Centric does not induce any chemical changes that would effect compliance with the above FDA requirements. World Centric guarantees compliance of its products with the above requirements as shipped. Users must make their own determination if the containers are safe and technically suitable for the intended application. This letter of guarantee is valid unless revoked in writing by World Centric. If you have any questions, please feel free to contact me. Thank you for your interest in our products.

Sincerely,

Greg Zitzer
Director of Supply Chain
