

GLOBAL TABLEWARE SOLUTIONS, INC.

January 1, 2022

To whom it may concern:

GTS Letter of Guarantee

GTS, Inc. certifies through this Letter of Guarantee that all our products intended for direct food contact, whether made from paper (including Walk N Dip containers), corrugate, polystyrene, polypropylene, PET, aluminum, wood, PLA or molded fiber, comply with USFDA requirements as described in the Code of Federal Regulations.

Any items produced by our manufacturers use resins that are BPA free and completely safe for food contact. We certify that our products are not altered or misbranded as outlined in the US Federal Food, Drug and Cosmetic Act. However, GTS is not responsible for any adulteration of the packaging once it is shipped to you and placed in your possession. Also, under the provisions of the above act, GTS products may be used in interstate trade/commerce.

All our manufacturing facilities have third party inspections/approvals for food contact per FDA regulations and ISO9001, ISO14001 and BRC audits. Due to the contract manufacturing nature of our business and non-disclosure agreements, we cannot mail or transmit these certificates. However, all certificates are on file at our corporate office in Chino, CA and are available for in-person inspection upon request. If you have any questions regarding these guarantees, please contact me directly.

Sincerely,

John Yamashita  
Chief Operating Officer
