To Whom It May Concern:

Wampler's Farm Sausage Company, Inc. (WFS) is committed to food safety and the operations of the facility use Food Safety as a pillar of our mission. All of Wampler's products are produced in the United States of America.

Our facility (Establishment #9065) and the products produced at our establishment are manufactured in compliance with USDA/FSIS regulations and support all Good Manufacturing Practices (GMP's). WFS food safety and quality assurance programs, including HACCP (Hazard Analysis and Critical Control Points) and SSOPs (Sanitation Standard Operation Procedures) are continuously monitored and improved. Input and discussion with our continuous inspection, USDA, is used to stay ahead of changing regulations & notices from the federal regulatory agencies. We operate in accordance with CFR regulations and GFSI (Global Food Safety Initiative) Practices, which include ingredients from approved suppliers, food defense, food safety & more.

The GFSI program we are currently certified under is SQF (Safe Quality Food), Food Safety Systems, formerly level 2. We are in our 12th year under the SQF program.

Wampler's is very proud of the certifications we have achieved and continually strives for improvements of food safety and quality management systems to make the most wholesome product possible and provide the most protection for our customers and their families everywhere. For the year 2022, this stands as a letter of guarantee that the product list is warranted to be wholesome and safe for consumption. If you require a letter of HACCP Compliance, please keep this letter as documentation of compliance.

Sincerely,

Trae Wampler
