FDA / USDA COMPLIANCE STATEMENT: POLYSTYRENE PRODUCTS

I am pleased to respond to your request for Pactiv LLC's statement of our polystyrene plastic products' compliance with applicable regulations promulgated by the U.S. Food and Drug Administration (FDA). This representation conforms to U.S. FDA guidelines provided per 21 CFR 7.13, and with applicable United States Department of Agriculture (USDA) prescriptions, set forth in 9 CFR 317.24(b) and 9 CFR 381.144(b).

Pactiv's statement is based upon information provided by our suppliers, including tests and analyses confirming ingredient materials' compliance with FDA's chemical migration specifications, if any. Pactiv's statement is further based upon our plants' adherence to good manufacturing practices. As such, Pactiv's statement is consistent with Global Food Safety Initiative (GFSI) benchmarks with respect to food - contact packaging materials.

This statement pertains to Pactiv's Oriented Polystyrene (OPS) and/or High Impact Polystyrene (HIPS) products of all widths, thicknesses, and colors, and bearing Pactiv's responsibility declaration and brand markings.

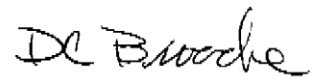

Pactiv's aforementioned polystyrene plastic products shall be, at the time of their shipment, in compliance with the Federal Food, Drug and Cosmetic Act, as amended. The products shall not be adulterated or misbranded within the meaning of the Act, and are not restricted from introduction into interstate commerce under Sections 404, 505, or 512 thereof. Pactiv's polystyrene products comply with applicable food packaging regulations promulgated by U.S. FDA in 21 CFR Parts 170 - 199.

Pactiv's polystyrene plastic products are generally suitable for use in fabricating articles that are, themselves, intended for packaging and storing all foods at temperatures of 180° F. or below. Such articles should not be generally recommended for use during packaged foods' heating / re-heating. Fabricators should assure their articles' fitness for any particular food - contact use by means of appropriate tests and evaluations.

This non-assignable representation supersedes and revokes all previous representations of similar nature. This representation is continuing. It shall be in effect unless and until it is terminated, in writing, by Pactiv LLC. It need not, therefore, be periodically renewed. This representation shall be of no effect, however, if our customer's use of Pactiv's polystyrene products is not authorized by, or is not done in accordance with the provisions of the Federal Food, Drug and Cosmetic Act. Pactiv's foregoing representation has no effect upon our standard and/or contractual terms and conditions of sale.

Thank you for your support of Pactiv's foodservice / food packaging products.

Sincerely,

A handwritten signature in black ink that reads "DC Broocke". The letters are cursive and somewhat stylized, with the "D" and "C" being particularly prominent.
